# New Product Announcement

### Date: 6/2011

## **J49**

## **High Strength Red**

### **Product Information:**

**J49** is a new toner for the ShopLine color platform, expanding the color capability of the ShopLine paint systems. This new toner will be replacing J52 and J63 in current formulations.

### **Marketing Information:**

**J49** provides improved pigment strength and durability over the current J52 and J63, allowing for improved color match and performance in formulas containing these toners.

### **Color Information:**

J49 will be replacing both J52 and J63 in color formulations.

- For J52 formulations, <u>colors were re-matched</u> to contain the new J49. J49 is **NOT** a direct, drop in replacement for J52. At this time, formulas that have been rematched to contain the new J49 are available immediately through PPG On-Line color. These formulas will also be available in the July Paint Manager Internet update and in the August/September 2011 update CD.
- For J63 formulations, J49 can be directly substituted. Effective immediately in PPG On-Line color, formulations that previously contained J63 will reflect the new J49. This change will also be reflected in the July Paint Manager Internet update and in the August/September 2011 update CD.

Once color matching is complete, J52 and J63 will be discontinued. However, historic formulas containing these toners will be available in order to work through any remaining stock.

### **Ordering Information:**

	J49	J49	
Size:	01	04	
Container:	round gallon	round quart	
Packaging:	2 per case	6 per case	
Jobber Cost:	127.51	35.67	
Suggested Refinisher:	202.40	56.60	
Suggested List:	220.01	61.52	

## New Product Announcement
