

# New Product Announcement

**ENVIROBASE<sup>®</sup>**  
**HIGH PERFORMANCE**

Date: 8/2011

## **T4281 Solid Yellow**

### **Product Information:**

T4281 Solid Yellow is a new toner for the Envirobase High Performance system.

### **Marketing Information:**

In order to continuously improve the color quality of the Envirobase High Performance mixing system, PPG is introducing a new Envirobase HP toner, **T4281 Solid Yellow**. T4281 Solid Yellow is available immediately and will eventually replace T428 Verdant Yellow once the color match process is complete. Currently, more than 75% of 3,245 color formulas containing T428 have been reformulated using T4281, with the remaining color formulas to be converted by end of the first quarter 2012. Envirobase Customers are advised to begin ordering the T4281 Solid Yellow toner immediately.

- **T4281 Solid Yellow is NOT a direct substitution for T428 Verdant Yellow!**
- Toner T428 Verdant Yellow will still be available under the historical formula

### **Color Information:**

Color formulas containing T4281 Solid Yellow will be available immediately on-line, and will be included in the next PaintManager™ software release (3rd CD, 2011).
