Course Option 8

PPG Vibrance Collection™ Products Course

PPG's new Vibrance Collection™ Products Course will help you discover the wide variety of ways to create one of a kind custom paint jobs. The class includes instruction on the Vibrance Collection™ color pallet. Class members will learn how to use special effect pigments, candy dyes and tints to create custom colors in addition to the many formulated colors already available in the Vibrance Collection™. A major focal point of the class will be teaching students the rules of custom painting and how to select the right products for a job from primer to clear. The instruction will include tips on how to use a mid coat clear to successfully layer coats of Vibrance Collection™ colors for exciting effects.

This course is hands on and designed for distributor salespersons and custom paint technicians. Students will demonstrate their technique by creating 2 special effect show panels using Vibrance Collection™ products. 15 contoured shapes will also be available to spray on additional Vibrance Collection™ products. The show panels will make great displays and will be a device to help sell Vibrance Collection™ colors to your customers. Students will be given the chance to spray the many different products in the Vibrance Collection™.

Class size is limited to 10 – 12 participants. Applications are handled on a first-come, first-serve basis – so don't delay, sign up today!

The Course Includes:

- Two full days of instruction.
